Service-Learning Project

Who's my sponsor?
My sponsor is Britt Ryan; he's the technology associate at Summit Church. Second of Kyle Uptergrove(person who took me up for the volunteer)

Service-Learning Project

What I did?

The first day

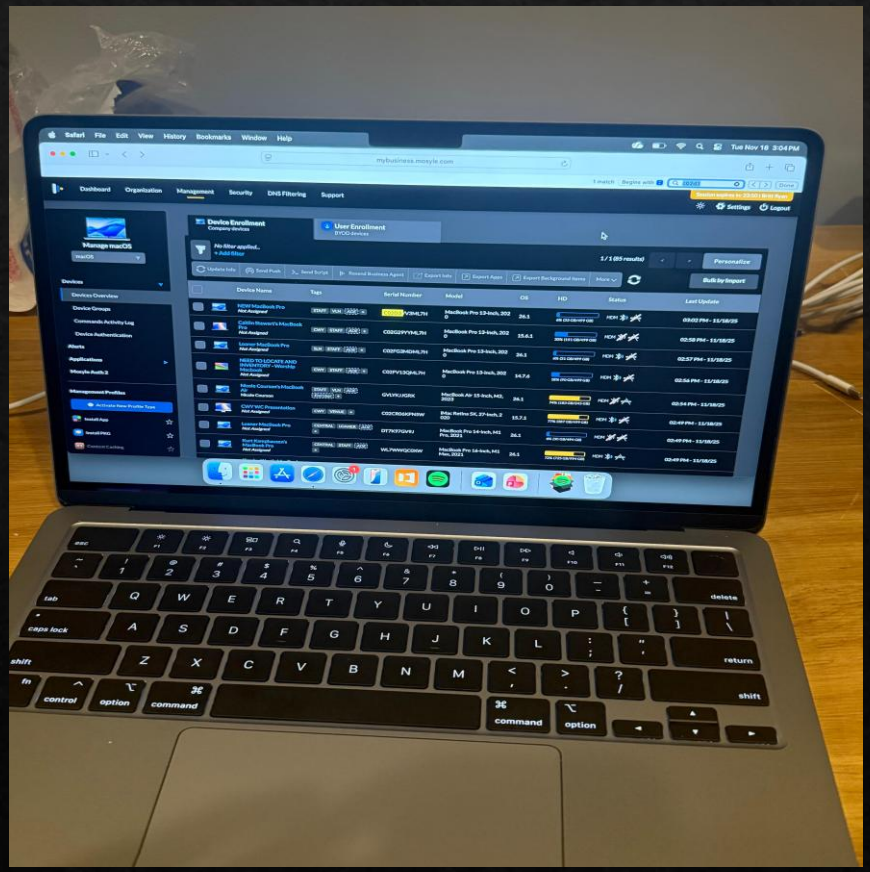

- I erase all content and settings in MacBook and iMac
- Configurate that PC
  - Create new users
  - Turn on the location
  - Change the password
  - Change the computer name
- Update to macOS Tahoe 26.1
- Configurate Splashtop Streamer
  - Screen recording
  - Microphone

Service-Learning Project

The second day

- Same things than the first day
- Change the structure of a html code

Service-Learning Project

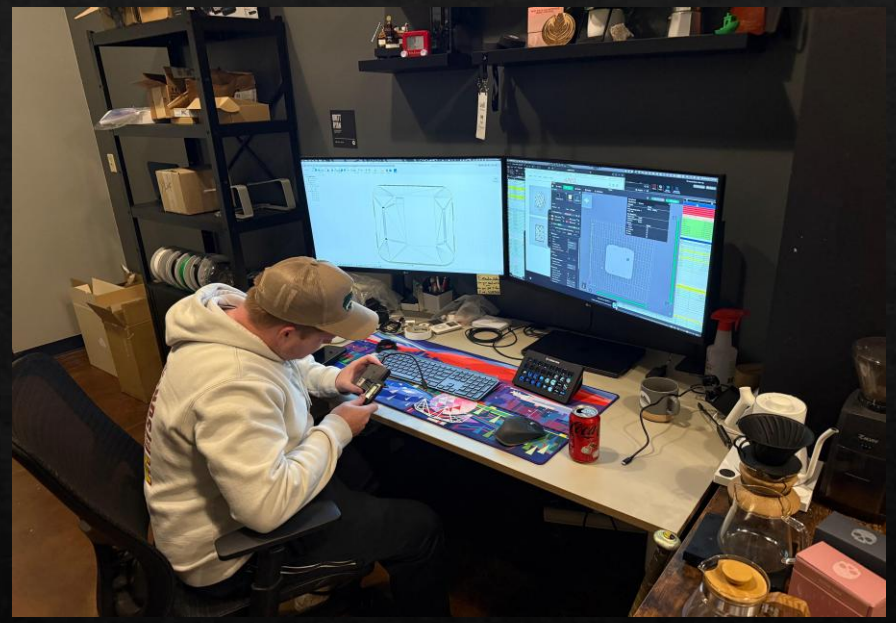

The third day

- Change the Structure of a word document
- Print some documents
- Installation of a printer and its connection to internet
- Installation of a camera and its connection to internet by ethernet cable
- Installation of ethernet cables

Service-Learning Project

The fourth day

- Help to create a controller with a printer 3D
- Installation of ethernet cables and boxes
- Same things than the first day

Service-Learning Project

That was a good experience for me. I learn a lot and I'm sure of benefits that this experience add on me. It's a new thing to add on my CV and everything I learn will be helpful in the future.
